Journal Selection Report

Job code	xxxxxxx
Manuscript title	Incidence of Cardiovascular Diseases in India and Across the Globe
Date	xxxxx
Author preferences	**Keywords:** Cardiovascular diseases; Incidence; Prevalence; Risk factors; Morbidity; Mortality. India; Global burden; Epidemiology; Public health; Prevention; Lifestyle factors. Hypertension; Diabetes; Urbanization; Noncommunicable diseases; Healthcare access.
Comments on Adherence to Author Preferences	All recommended journals have regularly published articles on topics related to the authors' Area of Research / Idea

Journal Recommendations

Journal name	Comments
BMC Cardiovascular Disorders *Publisher: Biomed Central*	**The Reason for the recommendation:** 1. *BMC Cardiovascular Disorders* is an open-access, peer-reviewed journal that considers articles on the characterization, prevention, diagnosis, and treatment of disorders of the heart and circulatory system. The journal welcomes clinical, basic, and translational science studies that provide insights into pathophysiology, molecular and cell biology, genetics, pharmacology, or epidemiology of cardiovascular diseases. Articles on surgical advancements and new technologies aiding in the diagnosis, monitoring, and computational modelling of cardiovascular disorders are also considered. 2. The journal published several articles on topics like authors' Area of Research / Idea, e.g., • Guo, C., Lin, N., Cao, A. *et al.* Gender differences in the predictive value of serum uric acid for major adverse cardiovascular events in patients with acute coronary syndromes: a retrospective cohort study. *BMC Cardiovasc Disord* **25**, 784 (2025). https://doi.org/10.1186/s12872-025-05262-x • Kosuga, T., Hosokawa, Y., Hori, H. *et al.* Unusual consequences of intravenous thrombolysis in a patient undergoing delayed aortic surgery for aortic dissection presenting as acute ischemic stroke: a case report. *BMC Cardiovasc Disord* **25**, 782 (2025). https://doi.org/10.1186/s12872-025-05258-7

Frontiers in Cardiovascular Medicine *Publisher: Frontiers Media*	**The Reason for the recommendation:** 1. *Frontiers in Cardiovascular Medicine* is a multidisciplinary journal that publishes research articles across basic, translational, and clinical cardiovascular medicine. 2. The journal published several articles on topics like authors' Area of Research / Idea, e.g., • Rauers, A., Schmiedek, F., Lindenberger, U., & Riediger, M. (2025). You know what I mean! Idiosyncratic cueing supports older couples' communication efficiency. *Frontiers in Developmental Psychology*, *3*(1649507). doi:10.3389/fdpys.2025.1649507 • Karadağ, D., Bazhydai, M., & Westermann, G. (2025). Young children's transmission of information following self-discovery and instruction. *Frontiers in Developmental Psychology*, *3*(1553491). doi:10.3389/fdpys.2025.1553491
European Journal of Preventive Cardiology *Publisher: Oxford University Press*	**The Reason for the recommendation:** 1. The *European Journal of Preventive Cardiology* (*EJPC*) is an official, international, peer-reviewed journal of the European Association of Preventive Cardiology (EAPC), an association of the European Society of Cardiology (ESC). The Journal embraces all scientific, clinical, and public health disciplines that address the causes and prevention of cardiovascular disease, as well as risk factor management, cardiovascular rehabilitation, population science and public health, and exercise physiology. 2. The journal published several articles on topics like authors 'Area of Research / Idea, e.g., • Francesca Graziano, Dorottya Balla, Vencel Juhasz, Nora Sydo, Orsolya Kiss, Emese Csulak, Mate Babity, Mark Zamodics, Csongor Mesko, Zsofia Dohy, Domenico Corrado, Alessandro Zorzi, Bela Merkely, Liliana Szabo, Hajnalka Vago, Cardiopulmonary physical fitness and tissue characterization through T1 and T2 mapping: new insights on athlete's heart, *European Journal of Preventive Cardiology*, 2025;, zwaf616, https://doi.org/10.1093/eurjpc/zwaf616 • Xiaohui Yu, Zhan Lian, Jinyi Wu, Peng Tang, Sizheng Xiong, Comprehensive risk factor control in type 2 diabetes and incident peripheral artery disease, *European Journal of Preventive Cardiology*, 2025;, zwaf697, https://doi.org/10.1093/eurjpc/zwaf697

Journal Comparator

Key Parameters		BMC Cardiovascular Disorders	Frontiers in Cardiovascular Medicine	European Journal of Preventive Cardiology
Publisher		Biomed Central Ltd	Frontiers Media	Oxford University Press
Similar research published		Yes	Yes	Yes
Indexing database		PubMed/MEDLINE, the Science Citation Index Expanded (SCIE), Embase, and BIOSIS Previews	Google Scholar, Scopus, WoS, DOAJ, PubMed, Crossref, Research Gate, Frontiers, Index Copernicus, ISSN Portal, National Library of Medicine (NLM)	Scopus, Web of Science (Science Citation Index Expanded), and PubMed Central. DOAJ
Impact factor		2.3	2.9	7.6
Review duration		6.0 weeks	77 days	3–8 weeks
Publication type		Open-access, peer-reviewed journal	Peer-reviewed open-access scientific journal	Original research papers, reviews, and editorials
Rejection rate		NA	40%	70%
Acceptance rate		NA	60%	30%
Article processing charges		Around 2090 GBP; 2890 USD; 2390 EUR.	$2,511 USD	There are no article processing charges
Limit	**Word count**	350 words maximum	350-word abstract.	5,000-word limit
	Figure/Tables	15 words maximum	15-figure/table maximum	Up to 6 figures/tables
	References	No limit	There is no specific word count for references	40 References

Supporting Information - Rationale for Inclusion and Scope

BMC Cardiovascular Disorders	
Rationale for inclusion	An open-access, peer-reviewed journal that provides a platform for disseminating significant research on cardiovascular diseases, supporting global access to advancements in cardiovascular science and clinical care.
Scope	Covers all aspects of cardiovascular medicine, including pathophysiology, genetics, epidemiology, diagnostics, pharmacology, treatment, prevention, and rehabilitation of cardiovascular disorders.

Frontiers in Cardiovascular Medicine	
Rationale for inclusion	A reputable open-access journal that publishes high-quality, peer-reviewed research across all areas of cardiovascular medicine, promoting scientific advancement and innovation in heart and vascular health.
Scope	Includes basic, clinical, and translational research on cardiovascular diseases, diagnostics, therapeutics, cardiac imaging, surgery, vascular biology, and preventive cardiology.

European Journal of Preventive Cardiology	
Rationale for inclusion	It is a leading international journal focusing on the prevention, rehabilitation, and management of cardiovascular diseases, making it essential for advancing preventive cardiology research and clinical practice.
Scope	Covers cardiovascular disease prevention, epidemiology, lifestyle interventions, exercise physiology, cardiac rehabilitation, risk assessment, and public health strategies.

Appendix: Frequently Asked Questions

Q: What is the focus of the journal?
A: Each journal focuses on cardiovascular research covering prevention, diagnosis, treatment, and rehabilitation of heart and vascular diseases.

Q: Are the journals peer-reviewed?
A: All three journals follow a rigorous peer-review process to ensure the quality and validity of published research.

Q: Are the journals open access?
A: BMC Cardiovascular Disorders and Frontiers in Cardiovascular Medicine are fully open access. European Journal of Preventive Cardiology is a hybrid journal (some articles are open-access, others require subscription).

Q: What types of articles are accepted?
A: Research articles, reviews, case studies, short communications, systematic reviews, and clinical trial reports.
