

Manuscript Editing Services

Manuscript Editing Services

Pubrica writers have worked with numerous journals in medical and scientific subjects. We work with scientists and researchers across the globe to write novel manuscripts that explain finding in a clear and cohesive structure. We provide prepublication services, including editing, proofreading, rewriting, and translation services for your manuscript.

Tell us about your project and get a 15% discount. Call us today; a project manager will answer your queries.

Multi-level editing by native experts

Pubrica has a "double-tier" editor process. First, an SME vets the manuscript to check consistency, coherency, and comprehension; second, another SME takes a second pass to recast ambiguous writing from the manuscript. Our native English

editors from Australia, UK, Canada, and the US are cognizant of the problems that speakers with English as Second Language (ESL) have to deal with.

Service across all specializations

We match manuscript-writing requests to our panel of Subject-Matter Experts (SMEs)—professional editors who work at their relevant field of specializations every day; moreover, they are certified and know the various phases of the publication process. Hence, let the experts handle language and technicalities of the your manuscript.

Quality at every phase

Top-grade editing by SMEs to ensure acceptance by publisher. PHD, MS, MSC, MPHARM, MD, and ME—these are some of the qualifications of our team members; moreover, they average approximately 21 years of work experience. Quality at every stage of the manuscript is indeed a priority.

Therefore, talk to us about your specific requirements.

Pubrica editing process

All documents are edited on-screen in Microsoft Word with the 'Track Changes' tool turned on. This enables the author to see and print out all of the changes made to the document. Comments to the author are marked in yellow, within brackets. After editing, the author receives two files. The Edited file shows all changes made to your manuscript (given below), while in the Approved file the changes have been accepted and only the edited text is visible. Authors must carefully check the Approved file to ensure that their intended meaning has not been altered in the manuscript. If you have any questions regarding the edits done to the manuscript, please return the manuscript to us along with any queries that need to be addressed (see our Ask the expert); free of cost.

Given below are samples of edited manuscript and reports:

- > A sample of a feedback report
- > A sample of an edited manuscript

Expertise and Quality: Your work is edited by senior level professionals

Top-grade editing by SMEs to ensure acceptance by publisher. PHD, MS, MSC, MPHARM, MD, and ME—these are some of the qualifications of our team members; moreover, they average approximately 21 years of work experience. Quality at every stage of the manuscript is indeed a priority. Therefore, talk to us about your specific requirements.

Convenience and quick delivery

Receive customized communication pertaining to your editing needs within a few hours of talking to us; most of the projects are delivered within one week or two, and the average manuscript is revised within 3-5 days. In case you need revisions within a short notice, then request for our quick service feature. You can

always contact us with follow-up questions after you receive your edited documents; think of us as your personal editor, ready to assist you 24/7.

Privacy policy and confidentiality

Pubrica Publication is ISO 9001: 2015 certified and we are not active researchers or employed as scientists. As scientists, we fully understand that the confidentiality of your ideas and results is essential. We will not share your identity, email address, concepts, research findings or manuscript with anyone. There is no risk of your competitors seeing your important data before you publish. All editors at Pubrica have signed a legally binding nondisclosure agreement.
