

The Role of the Corresponding Author in Research Publication

- The presence of a corresponding author is crucial in the process of publishing scientific research. This individual holds significant responsibilities that involve several critical tasks essential in maintaining the integrity, quality, and timely dissemination of research findings.
- Here's a detailed look at the key aspects of the corresponding author's role.

COMMUNICATION HUB:

- The corresponding author serves as the primary point of contact between the research team and the journal editor. They are responsible for all communication related to the manuscript, including submission, revisions, and queries.

SUBMISSION MANAGEMENT:

- The corresponding author must ensure that the manuscript is prepared according to the journal's guidelines and that all required documents, such as author agreements and conflict of interest statements, are included in the submission package.

AUTHORSHIP INTEGRITY:

- The corresponding author must verify that all individuals who have contributed significantly to the research are listed as authors and that all authors have approved the final version of the manuscript before submission.

CONFLICT OF INTEREST DISCLOSURE:

- Any potential conflicts of interest that could influence the research or its interpretation must be disclosed by the corresponding author.

PEER REVIEW HANDLING:

- The corresponding author manages the peer review process, including responding to reviewer comments, revising the manuscript based on feedback, and ensuring that any required revisions are completed in a timely manner.

PROOFREADING AND FINAL APPROVAL:

- Before publication, the corresponding author is responsible for ensuring that the manuscript is free of errors and that all revisions have been incorporated. They must also approve the final version of the manuscript for publication.

COPYRIGHT MANAGEMENT:

- The corresponding author may be required to sign a copyright agreement on behalf of all authors, granting the journal the right to publish the manuscript.

POST-PUBLICATION RESPONSIBILITIES:

- After publication, the corresponding author remains the point of contact for any inquiries related to the published work and is responsible for addressing any post-publication issues that may arise.
