

# JOURNAL SELECTION

**CHRONIC OBSTRUCTIVE PULMONARY DISEASE  
(COPD): AN OVERVIEW OF CONTEMPORARY  
MANAGEMENT AND NOVEL THERAPIES**

## Journal Selection Report

Job code	xxxxxxx
Manuscript title	Chronic Obstructive Pulmonary Disease (COPD): An Overview of Contemporary Management and Novel Therapies
Date	xxxxx
Author preferences	<b>Keywords:</b> Chronic Obstructive Pulmonary Disease, COPD management, novel therapies, respiratory medicine, pulmonary rehabilitation
Comments on Adherence to Author Preferences	All recommended journals have regularly published articles on topics related to the authors' Area of Research / Idea

## Journal Recommendations

Journal name	Comments
<p><i>Pulmonary Therapy</i></p> <p><i>Publisher: Springer Healthcare</i></p>	<p><b>The Reason for the recommendation:</b></p> <ol style="list-style-type: none"> <li><i>Pulmonary Therapy</i> is an international, open access, peer-reviewed (single-blind), and rapid publication journal. The scope of the journal is broad, covering the use of pulmonary therapies, devices, and surgical techniques.</li> <li>The journal published several articles on topics like authors' Area of Research / Idea, e.g., <ul style="list-style-type: none"> <li>Yu, L., Chen, J. Destroyed Lungs and Surgical Management. <i>Pulm Ther</i> (2026). <a href="https://doi.org/10.1007/s41030-026-00369-8">https://doi.org/10.1007/s41030-026-00369-8</a></li> <li>Lupia, C., Pastore, D., Giacalone, A. <i>et al.</i> Impact of Single-Inhaler Triple Therapy FF/UMEC/VI on Disease Stability in COPD: A Real-World 12-Month Analysis. <i>Pulm Ther</i> (2026). <a href="https://doi.org/10.1007/s41030-026-00368-9">https://doi.org/10.1007/s41030-026-00368-9</a></li> </ul> </li> </ol>

***The Clinical Respiratory Journal***  
 Publisher: **John Wiley & Sons**

**The Reason for the recommendation:**

1. *The Clinical Respiratory Journal* (CRJ) is an open access journal providing a forum for clinical research in all areas of respiratory medicine from clinical lung disease to basic research relevant to the clinic. Publishing original research, review articles, case studies, editorials and book reviews in all areas of clinical lung disease.
2. The journal published several articles on topics like authors' Area of Research / Idea, e.g.,
  - R. Tiruvoipati, A. Wang, M. E. Cove, S. Do, Q. Huynh, and S. S. W. Ching, "Practice and Perceptions on Extracorporeal Carbon Dioxide Removal in the Current Era: A Multinational Survey," *The Clinical Respiratory Journal* 20, no. 6 (2026): e70203, <https://doi.org/10.1111/crj.70203>
  - A. J. Abdulsalam, R. Ambardar, M. Abdulsalam, et al., "Sarcopenia and Physical Function in Obstructive Sleep Apnea: A Single-Centre Cross-Sectional Study (The SOSA Study)," *The Clinical Respiratory Journal* 20, no. 6 (2026): e70201, <https://doi.org/10.1111/crj.70201>.

***Therapeutic Advances in Respiratory Disease***  
 Publisher: **SAGE Publishing**

**The Reason for the recommendation:**

1. Whether you're a first-time author or a seasoned researcher, navigating the publishing process can be both exciting and complex. This collection of resources is designed to guide you every step of the way from developing your manuscript and selecting the right journal to understanding peer review, open access options, and post-publication promotion. Explore practical tools, expert advice, and step-by-step guides tailored to help you publish with confidence and impact.
2. The journal published several articles on topics like authors 'Area of Research / Idea, e.g.,
  - Robertson L, Knox-Brown B. Performance of pre-flight assessment algorithms in interstitial lung disease validation cohorts. *Therapeutic Advances in Respiratory Disease*. 2026;20. doi:[10.1177/17534666261459342](https://doi.org/10.1177/17534666261459342)
  - Şimşek ŞM, Gök G, Bektaş Aksoy H, Günaydın S, Kılıç N. Arterial stiffness and wave reflection profiles in patients with asthma: the role of hemodynamic determinants. *Therapeutic Advances in Respiratory Disease*. 2026;20. doi:[10.1177/17534666261454200](https://doi.org/10.1177/17534666261454200)

## Journal Comparator

Key Parameters		<i>Pulmonary Therapy</i>	<i>The Clinical Respiratory Journal</i>	<i>Therapeutic Advances in Respiratory Disease</i>
<b>Publisher</b>		Springer Healthcare	John Wiley & Sons	SAGE Publishing
<b>Similar research published</b>		Yes	Yes	Yes
<b>Indexing database</b>		PubMed/MEDLINE, Embase, Scopus, and the Directory of Open Access Journals (DOAJ)	Science Citation Index Expanded (SCIE) (Clarivate Analytics) PubMed / MEDLINE Scopus Embase (Elsevier) Academic Search (EBSCO) UGC-CARE List	Scopus, MEDLINE, PubMed, and Web of Science (SCIE)
<b>Impact factor</b>		3.0	2.3	3.2
<b>Review duration</b>		6 to 12 weeks	59 days	15 weeks
<b>Publication type</b>		international, peer-reviewed academic journal	peer-reviewed academic journal, Open access	<b>open access periodical</b>
<b>Rejection rate</b>		50%	<b>74% and 88%</b>	75%
<b>Acceptance rate</b>		15% and 61%	12%	<b>4.7%</b> ,
<b>Article processing charges</b>		<b>GBP: £5120, USD: \$7675 EUR: €5950</b>	<b>\$2,430 USD</b>	\$3000 USD.
<b>Limit</b>	<b>Word count</b>	5,500 words for primary original research articles 250 words.	<b>5,000-word limit</b> for original articles	4,000 to 6,000 words.
	<b>Figure/Tables</b>	No limit	No strict limit	2 tables, with no figures
	<b>References</b>	40-50	No absolute strict limit	No limit on the number of references

## Supporting Information - Rationale for Inclusion and Scope

<i>Pulmonary Therapy</i>	
Rationale for inclusion	Focuses on treatment approaches and clinical management of respiratory diseases, relevant to therapeutic research.
Scope	Covers clinical studies, treatment strategies, and management of pulmonary and respiratory disorders.

<i>The Clinical Respiratory Journal</i>	
Rationale for inclusion	Publishes clinically relevant respiratory research useful for evidence-based practice and patient care.
Scope	Includes clinical trials, diagnostics, and management of respiratory and lung diseases.

<i>Therapeutic Advances in Respiratory Disease</i>	
Rationale for inclusion	Strong focus on new and emerging therapies in respiratory medicine.
Scope	Covers innovative treatments, clinical research, and reviews in respiratory disease management.

**Appendix: Frequently Asked Questions**

**1: What is the focus of Pulmonary Therapy?**

Pulmonary Therapy focuses on clinical management of respiratory diseases, including therapeutic approaches, surgical techniques, and pulmonary devices. It publishes peer-reviewed research relevant to lung health and treatment.

**2: What type of research is accepted by The Clinical Respiratory Journal?**

The Clinical Respiratory Journal accepts clinical research, trials, case studies, reviews, and studies related to respiratory diseases, diagnostics, and patient management in lung medicine.

**3: What is the scope of Therapeutic Advances in Respiratory Disease?**

It covers innovative and emerging therapies in respiratory medicine, including clinical research, treatment strategies, and evidence-based advances in respiratory disease management.

**4: Which journal has the fastest publication process?**

Among the three, The Clinical Respiratory Journal generally has a faster review time (around 59 days), while Pulmonary Therapy and Therapeutic Advances in Respiratory Disease take longer.

**5: Which journal has the highest acceptance rate?**

Pulmonary Therapy shows a higher acceptance range compared to the other two journals, while Therapeutic Advances in Respiratory Disease has the lowest acceptance rate (~4.7%).
